1. Policy Statement

- 1.1 HK Electric Investments is committed to operating our business in a responsible and transparent manner while meeting the long-term energy needs and supporting the sustainable development of the community we serve, taking into consideration international consensus and industry best practices.
- 1.2 Underpinned by our core values, we aim to be a good corporate citizen and a world-class energy supplier providing safe, reliable, affordable and environmentally friendly electricity supply to our customers; and an employer of choice that attracts and develops talent.

2. Approach

To accomplish this, we integrate sustainability considerations into our operations, engage with and create shared value for our stakeholders and will:

- Strive to achieve a high standard of corporate governance and disclosure;
- Understand and address customer needs through innovative and caring services and protect personal data privacy;
- Secure a stable return and deliver long-term values for our investors;
- Treasure planet Earth by minimising the environmental impact of our operations and combating climate change;
- Assist employees to develop continuously in an engaged workplace and care for them and their families;
- Influence our business partners to adhere to a high standard of integrity; encourage and guide our suppliers and contractors to follow our requirements in various dimensions including ethics, human and labour rights, health and safety, environmental protection and climate action; and
- Nurture a caring culture in society by supporting and contributing to community investment.
