

16<sup>th</sup> Hong Kong Occupational Safety & Health Award  
Safety Promotion Award  
Comprehensive Promotion in Electrical Work Safety  
全面推廣電力工作安全  
(PR018)

By: HK Electric

Introduction

HK Electric organizes annual safety promotion programme as part of our continuous effort to nurture a safety culture among employees and contractors as well as to enhance their safety awareness. A topic of concern is selected each year as the main theme of the programme. In 2016, “Electrical Work Safety” was selected as the main theme of the programme with an aim to further enhance the safety knowledge of our employees and contractor in their daily electrical work.

Safety Promotion Programme

To engage support from our employees and contractors, an inauguration ceremony was organized on 13 July 2016 with officiating guests from Labour Department (LD), Electrical & Mechanical Services Department (EMSD), Occupational Safety & Health Council (OSHC), senior management of HK Electric and senior executives of our contractors to kick off the Safety Promotion Programme on Electrical Work Safety. The programme consisted of a series of activities around the main theme which included organizing Safety Specialist Seminar with the main theme “Electrical Work Safety” to learn from experience and the best practices in the industry, promoting the use of safety tools and equipment in electrical work, organizing briefing sessions to make our employees understand the new definition on live work under Electricity Supply Code published by EMSD and the associated safety requirements, organizing in-house safety quiz as well as participating in the Safety Quiz co-organized by OSHC and LD to reinforce employees’ safety knowledge, implementing Work Safe Behaviour Programme in electrical work, escorting to the Safety Resources Centre to provide a centralized information repository in providing occupational safety and health information to our employees and contractors, etc.

With the concerted efforts of senior management, employees and contractors, our employees engaging in electricity delivery operations achieved lost-time-injury free operation in 2016. Through this programme, the safety awareness, perception and knowledge of our employees and contractors have been further enhanced.

## 全面推廣電力工作安全

### 簡介

港燈每年都為員工和承辦商舉辦安全推廣活動以培養他們的安全文化並提升他們的安全意識。我們選擇特別值得關注的議題作為每年的推廣主題。在 2016 年，我們選定「電力工作安全」作為安全推廣活動的主題，以進一步加強他們在日常電力工作的安全知識。

### 安全推廣活動

為得到員工和承辦商的支持，我們在 2016 年 7 月 13 日與來自勞工處、機電工程署、職業安全健康局的嘉賓、港燈和承辦商的管理層出席開幕典禮，以啟動「電力工作安全」為主題的推廣活動。該活動內容圍繞一系列與主題有關的活動包括舉辦以「電力工作安全」為主題的安全專家研討會來促使不同工種的員工和承辦商學習事故成因及交流心得、推廣使用安全工具和設備、舉辦簡介會以確保員工明白由機電工程署編寫的「電力供應守則」對帶電工作的新定義和安全要求、舉辦港燈職安健常識問答比賽，並參與由職安局和勞工處合辦的職安健常識問答比賽，從而強化員工的安全知識、推行電力工作安全的工作安全行為計劃、參觀港燈「安全資源中心」以提供一站式的職安健資訊給員工和承辦商等等。

在管理層、員工和承辦商共同努力下，從事輸配電營運的員工在 2016 年達至全年無損失工時工傷的營運記錄。透過此推廣活動，他們的安全意識、認知和知識得以進一步提升。
