

電動車充電方案 EV CHARGING SOLUTION

One-stop Free
Service Assisting
in Applying for
"EV-charging
at Home Subsidy Scheme"
(First-come-first-served)

HK Electric provides one-stop free **Smart Power EV Charging Solution** service to assist customers in applying for the Government's \$2 billion **"EV-charging at Home Subsidy Scheme"** (the EHSS).

The EHSS is to subsidise the installation of EV charging-enabling infrastructure (EVCEI) in car parks of existing private residential buildings.

EHSS Subsidy will Cover

- Costs for employing a consultant and a contractor for installation of the EVCEI in the car park; and
- Costs of the installation works of EVCEI in the car park.

EHSS Subsidy will not Cover

- The supply and installation of EV chargers;
- Charging facilities installed before submission of application; and
- Operating, maintenance and insurance costs of the EVCEI installed under the EHSS.

Ceiling of EHSS Subsidy

- Not more than \$30,000 per eligible parking space; or
 - Not more than \$15 million in total for the entire development,
- whichever is lower.

Release of EHSS Subsidy

Subsidy will be released by batches to the successful applicant's dedicated/designated bank account for paying the consultant and contractor engaged by the applicant.

Application & Allocation of EHSS Subsidy

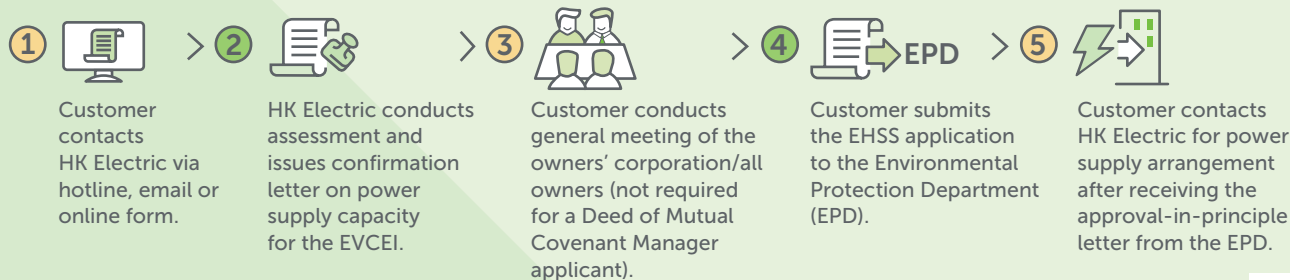

On a first-come-first-served basis until the funding is used up.

For terms and conditions, please refer to the EHSS webpage.
