Treasury Policy, Financing Activities, Capital and Debt Structure

The Trust Group manages its financial risks in accordance with guidelines laid down in its treasury policy which is designed to manage the Trust Group's currency, interest rate and counterparty risks. Surplus funds, which arise mainly from provision for capital expenditure to be incurred and from electricity bill collection, are placed on short-term deposits denominated in Hong Kong dollars. The Trust Group aims to ensure that adequate financial resources are available for refinancing and business growth whilst maintaining a prudent capital structure.

As at 30 June 2022, the net debt of the Trust Group was HK\$49,633 million (31 December 2021: HK\$46,592 million) with a net debt-to-net total capital ratio of 50% (31 December 2021: 49%). The Trust Group's financial profile remained strong during the period. On 10 March 2022, Standard & Poor's reaffirmed the "A-" long-term credit rating and "Stable" outlook for the Company and HK Electric which had remained unchanged since September 2015 and since January 2014, respectively.

The profile of the Trust Group's external borrowings as at 30 June 2022, after taking into account forward foreign exchange contracts, cross currency and interest rate swaps, was as follows:

- (1) 100% were in Hong Kong dollars;
- (2) 45% were bank loans and 55% were capital market instruments;
- (3) 5% were repayable within 1 year, 54% were repayable after 1 year but within 5 years and 41% were repayable after 5 years; and
- (4) 75% were in fixed rate and 25% were in floating rate.

The Trust Group's policy is to maintain a portion of its debt at fixed interest rates taking into consideration business and operational needs. Interest rate risk is managed by either securing fixed rate borrowings or by using interest rate derivatives.

Currency and interest rate risks are actively managed in accordance with the Trust Group's treasury policy. Derivative financial instruments are used primarily for managing interest rate and foreign currency risks and not for speculative purposes. Treasury transactions are only executed with counterparties with acceptable credit ratings to control counterparty risk exposure.
